***Restriction/Election***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

- |           |  |
|-----------|--|
| Group I   | Claims 1-12, 14-17 and 18-20, drawn to a method for inhibiting clathrate hydrate plug formation. |
| Group II. | Claim 13, drawn to a method of designing and selecting clathrate hydrate inhibitors.             |

2. The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: because Groups I-II have different modes of operation and end points. The method of invention I is directed to inhibiting a clathrate hydrate plug formation and the method of Invention II is directed to screening for clathrate hydrate inhibitors. Further, under PCT Rule 13.1 applicant is entitled to the first product, method of using and making said product and the claimed invention is directed to two different methods. Thus, these inventions are deemed to

lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
